Chronic-care technology company WellDoc has purchased Oncology Care Home Health Specialists, an education and consulting company dedicated to helping home health providers implement oncology programs, for an undisclosed amount.

Baltimore-based WellDoc renamed the company Oncology Care Home Health. The purchase is designed to accelerate the development and quality of WellDoc's mHealth oncology service, according to a WellDoc news release. The company plans to integrate Oncology Care's computer algorithms and said the deal better positions WellDoc to deploy real-time coaching and clinical support over the Internet and mobile devices.

WellDoc co-founder and CMO Dr. Suzanne Sysko also is the founder of the "Get Fit Maryland! The 10,000 Steps Program" anti-obesity initiative, according to WellDoc's [website](#).
